*Bookie WordPress Theme*

# Installation Process

# Requirements

## General Requirements

- ✓ Domain
- ✓ Linux hosting
- ✓ The latest version of **self-hosted WordPress CMS**

## WordPress Requirements

- ✓ **PHP 5.2.4** or greater
- ✓ **MySQL 5.0** or greater
- ✓ **mod\_rewrite** Apache module (for permalinks)

# (1) Installing WordPress CMS

The screenshot shows the WordPress.org homepage. At the top, there's a navigation bar with links for Showcase, Themes, Plugins, Mobile, Support, Get Involved, About, Blog, and Hosting. To the right of the navigation is a search bar with the placeholder "Search WordPress.org" and a magnifying glass icon. Below the navigation is a large blue button labeled "Download WordPress". The main content area features a large white box with the text "Just write." and "Say hello to the beautiful, simple, full-screen editor and forget all about everything else." To the right of this box is a text block that reads: "WordPress is web software you can use to create a beautiful website or blog. We like to say that WordPress is both free and priceless at the same time." Below this is another text block: "The core software is built by hundreds of community volunteers, and when you're ready for more there are thousands of [plugins](#) and [themes](#) available to transform your site into almost [anything you can imagine](#). Over 60 million people have chosen WordPress to power the place on the web they call "home" — we'd love you to join the family."

Today, most of hosting companies provide **one-click-install** feature for WordPress, for example Fantastico, Softaculous, etc. Please contact your hosting for the detail.

If you want to learn more about “Installing WordPress, please visit this link.

# (2&3) Install Bookie WordPress Theme

Go to Appearance > Themes > Install Themes > **Upload**

If you download the Eventica Full Package ZIP from ThemeForest, you can extract this ZIP file first, and you can find theme files under separate folders.

**bookie-wp-vX.X.zip** (parent theme)

**bookie-wp-child-vX.X.zip** (child theme)

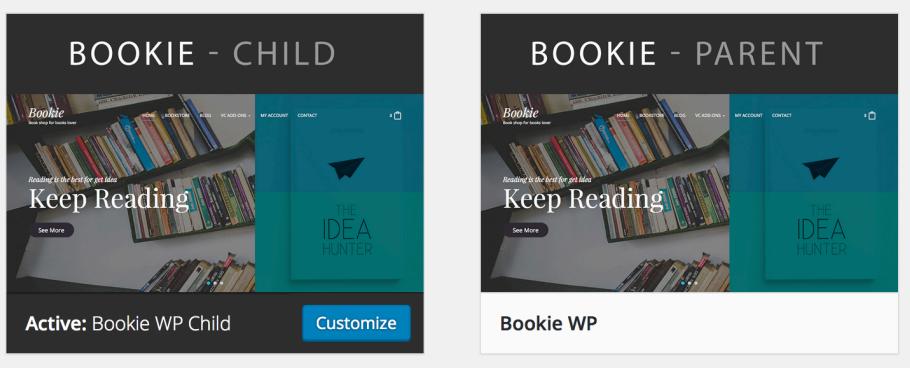

Go to **Appearance > Themes > Add New > Upload**

Upload **both** bookie-wp-vX.X.zip and bookie-wp-child-vX.X.zip

And then activate this theme Bookie-wp (child theme).

If you have a theme in a .zip format, you may install it by uploading it here.

No file chosen

## WHAT IS A CHILD THEME AND WHY USE IT?

Child theme builds upon an existing theme, without modifying the original theme, so that if the theme ever gets updated, your modifications to the theme are safe, because you've created a new theme and the update will only change the original files.

With a child theme, you can rebrand our theme with your own name, without modifying our theme!!!

# (4) Install Required & Recommended Plugins

For first use, please install and activate all of them

## Install Required Plugins

[All \(8\)](#) | [To Activate \(8\)](#)

Bulk Actions

<input type="checkbox"/> Plugin	Source	Type
<input type="checkbox"/> <a href="#">Bookie WP Addons</a> <a href="#">Activate</a>	Pre-Packaged	Required
<input type="checkbox"/> <a href="#">Toko Sliders</a> <a href="#">Activate</a>	Pre-Packaged	Required
<input type="checkbox"/> <a href="#">Toko VC &amp; Shortcodes</a> <a href="#">Activate</a>	Pre-Packaged	Required
<input type="checkbox"/> <a href="#">Visual Composer</a> <a href="#">Activate</a>	Pre-Packaged	Required
<input type="checkbox"/> <a href="#">WooCommerce</a> <a href="#">Activate</a>	WordPress Repository	Required
<input type="checkbox"/> <a href="#">Regenerate Thumbnails</a> <a href="#">Activate</a>		
<input type="checkbox"/> <a href="#">Widget Importer Exporter</a> <a href="#">Activate</a>		

After activating our theme, you will get a message to install required and recommended plugins. For first use, please install and activate all required and recommended plugins. Once your website is ready, you can deactivate some plugin that you do not need.

# (5) Import Dummy Data

We provide 3 dummy data to replicate our theme demo.

Dummy Data is useful if you want to replicate our theme demo for quick testing. We provide dummy data. You need to activate all recommended plugins before doing this process.

- 01\_dummy\_content.xml
- 02\_dummy\_widgets.wie

## **01) IMPORTING DUMMY CONTENT**

Login to your WordPress Dashboard, and go to Tools – Import page, click Wordpress, and choose the XML file above to start importing the demo data. You will need working internet connection to download the dummy images.

## **02) IMPORTING DUMMY WIDGETS**

Login to your WordPress Dashboard, and go to Tools – Widget Importer & Exporter page, click Export Widgets, and choose the WIE file above.

# (6) Setup Menus & Homepage

## SETUP MENUS

Go to [Appearance – Menus](#) page to setup your menus.

This theme comes with one menu location:

- Header Navigation
- Footer Navigation

You can create your menu and drag & drop menu elements on the left. Use “[Screen Options](#)” button at top right to show hide all menu elements.

If you use our dummy data, you can click Manage Locations and choose dummy menus.

Your theme supports 2 menus. Select which menu appears in each location.

Theme Location	Assigned Menu
Header Navigation	Header Menu <a href="#">Edit</a>   <a href="#">Use new menu</a>
Footer Navigation	Footer Menu <a href="#">Edit</a>   <a href="#">Use new menu</a>

Front page displays

Your latest posts  
 A [static page](#) (select below)

Front page: [Homepage](#)

## SETUP HOMEPAGE & BLOG

The default homepage is a standard blog page. You can go to [Settings – Reading](#) page to setup your static Homepage & Blog page.

If you use dummy data, click “A static page” and choose:

- Homepage page for Front page
- Blog page for Posts page

# Theme Customizer

# Working With Theme Customizer

The screenshot shows the WordPress Theme Customizer interface on the left, listing various theme options like Site Identity, Menus, and Widgets. On the right, a preview of the Bookie theme is displayed. The preview features a bookshelf background with books, a title 'Bookie' and subtitle 'Book shop for books lover', a tagline 'Reading is the best for get idea', and a large call-to-action button 'Keep Reading'. A 'See More' button is also visible. A dashed box highlights a note in the preview area: 'You can change the some options for some elements in your website in "Live Preview". These settings are saved on the database.' Below this note is a link 'Go to Appearance > Customize'.
